

black tai

salt co.

The Beautiful warm glow of a Black Tai Salt Crystal Lamp creates a soothing, relaxing atmosphere. Used in the home, the office, or in places of meditation Salt Crystal Lamps develop healing Feng Shui energy. The lamps' healing and purifying properties make them idea around televisions, computers and cigarette smoke.

Black Tai Salt Lamps are crafted by hand to retain their unique natural shape. The lit bulb warms the salt and sends light flowing through the crystal. Large quantities of healthy negative ions are released into the air.

While most ionizers are man made machines, salt crystal lamps are a natural and beautiful alternative.
